

apollobackup

Automated Backup Routine

Apollo Backup allows you to completely automate the back up of your data. Not just Apollo Data but any files you wish to save .

Not just backing up locally but also over lan, usb , dvd , cd or ftp.

- Hard Drive
- LAN
- FTP
- DVD
- CD
- USB Pen drive
- Hard Drive Caddy

Back up you Touch directory every night , every week or simply whenever you need to

Files are compressed to save disk space and stored for a pre-determined number of days , set by you.

DVD/CD burning allows the user to burn to a dvd or cd totally automatic , leave a blank disc in the drive and leave !
